

SCALE MODEL / PHOTOGRAPHY

The coast in miniature

A photographic study of the physical Batumi Yachts & Marina model.

SCALE MODEL / PHOTOGRAPHY

From harbour to home

Follow the marina basin, beachfront, internal water landscape and residential streets through photographs of the physical model.

01

The coastline

03

Waterfront buildings

05

Residential streets

02

The marina basin

04

The inner landscape

06

Villa gardens

Across the coastal neighbourhood

A published photograph of the model from the project presentation.

The harbour entrance

The marina basin and the buildings along its edge.

Inside the marina

Berths, waterfront paths and the yacht-club frontage.

The internal water landscape

Towers, residential blocks and landscaped water spaces.

At the neighbourhood edge

Larger buildings and the transition into the surrounding landscape.

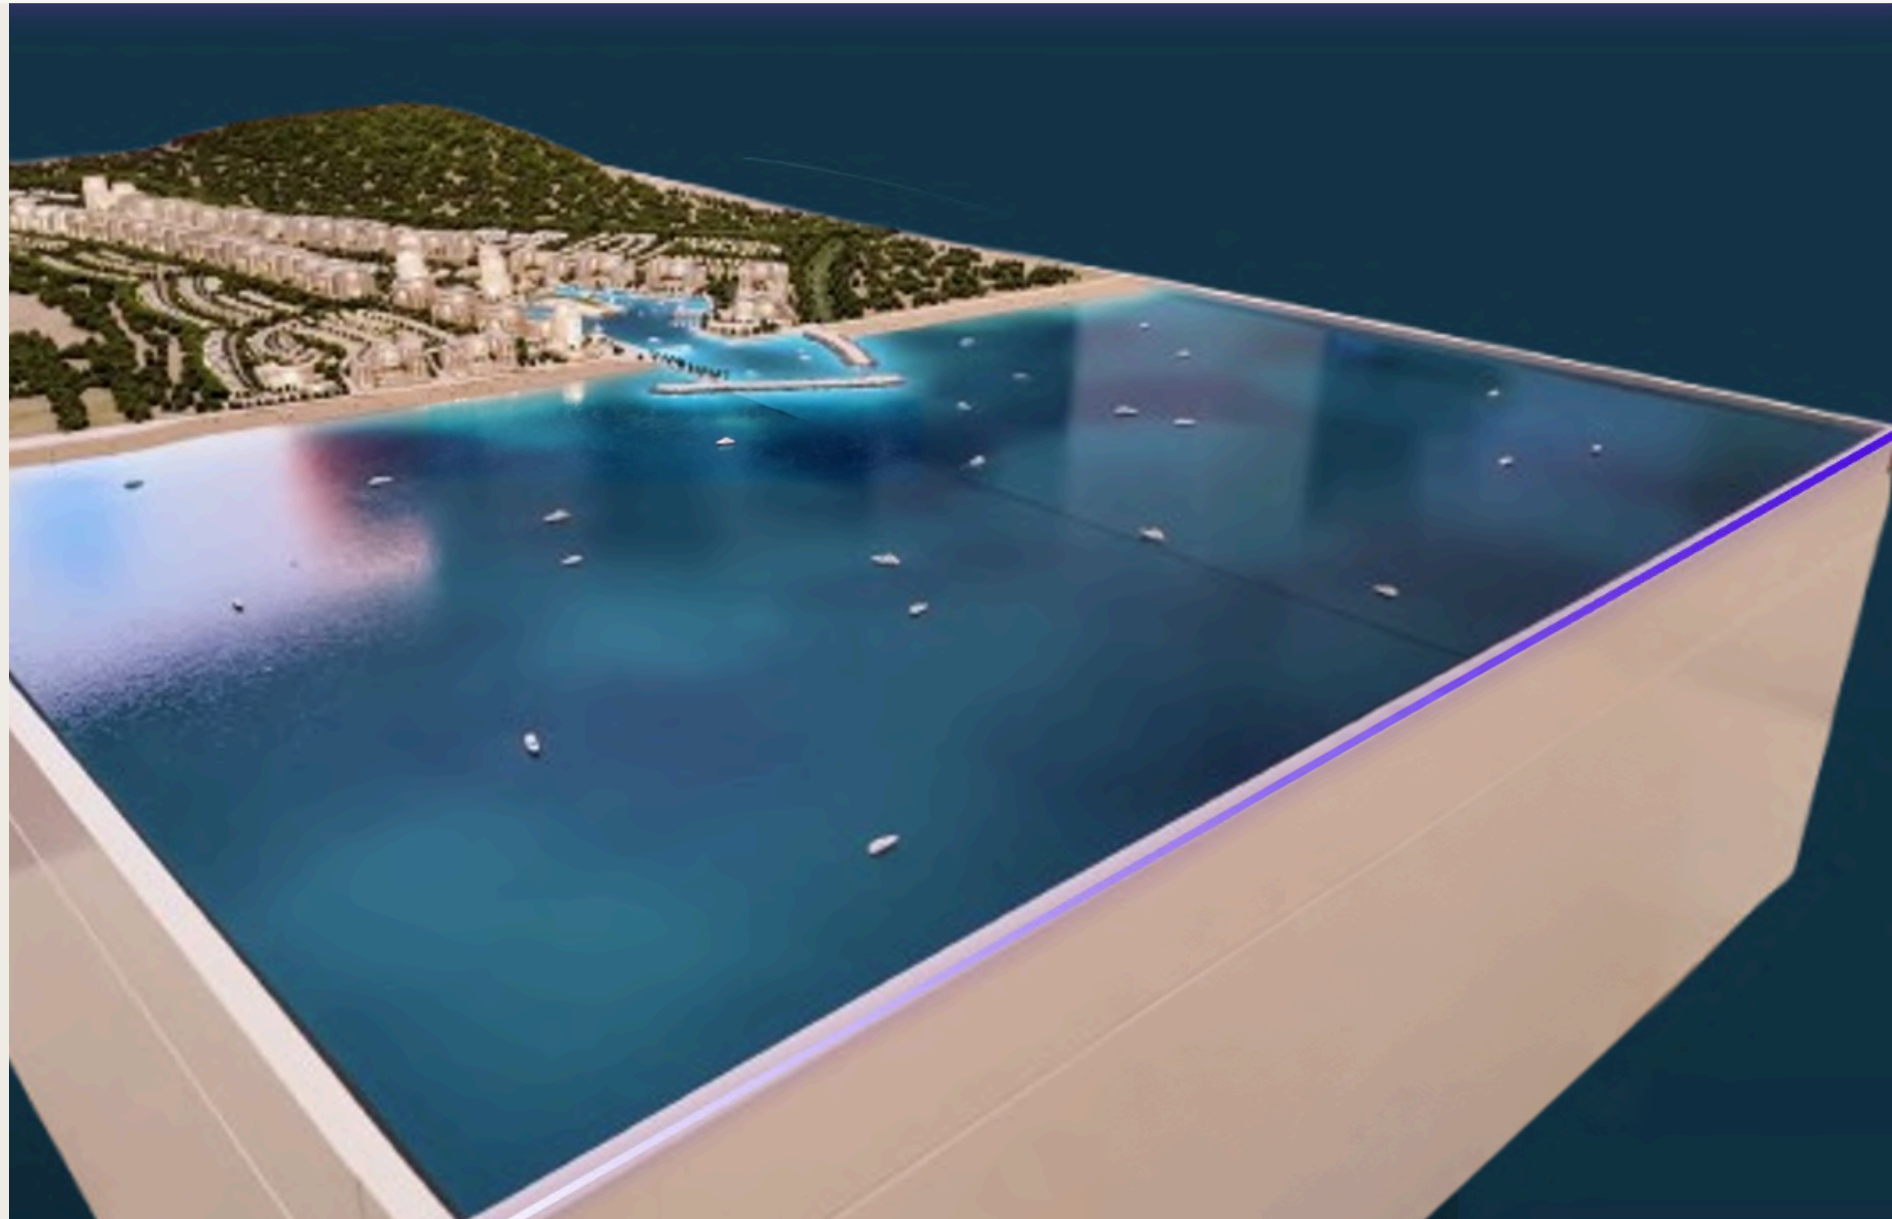

The villa streets

Homes, private gardens and the local street network.

The whole physical model

The coastline and harbour in the context of the complete display.
